Subject: Test And release of xDSL CPE

Released third party xDSL CPE_015

Dear Mr Boll

The interoperability tests performed by Engineering Support IPSS / Access in the frame work of releasing third party xDSL CPE to be used in the network of Swisscom have been finished.

The following table shows the equipment which has been released:

Equipment	Type	Release	Remarks
ADSL o. POTS Router	DrayTrek Vigor 2600	2A	FW2.1 DSL FW 41e2be2c
ADSL o. ISDN Router	DrayTrek Vigor 2600	2A	FW2.1 DSL FW 41e2be2c

The detailed test results will be sent to you in a separate document.

Yours faithfully,

Jürg Schmid
