FortiManagement Cloud

Cloud

Simplified Cloud Network Management and Analytics

FortiManagement Cloud is Fortinet's unified SaaS platform that simplifies administration, enhances visibility, and delivers centralized management, security analytics, and operational control for FortiGate, FortiAP, FortiSwitch and FortiExtender devices with a single unified cloud console. Built on the FortiCloud platform, it provides a seamless and scalable cloud-based experience that accelerates deployment, streamlines operations, and helps organizations maintain a strong security posture through a single, intuitive interface. Whether managing a few devices or a globally distributed deployment, FortiManagement Cloud enables organizations and service providers to efficiently operate, monitor, and secure their networks from anywhere.

Key Benefits of Unified Management and Analytics Solution

- **Reduce Infrastructure Costs**

  Eliminate the need for dedicated on-premises management infrastructure, lowering upfront capital expenditures while reducing operational overhead and IT resource requirements.
- **Enterprise-Class Reliability and Security**

  Benefit from a highly available, secure, and redundant cloud architecture backed by 24×7 service operations, helping minimize disruptions and support business continuity.
- **Scale on Demand**

  Adopt a flexible pay-as-you-grow model that allows organizations to start small and seamlessly expand as network size, users, and operational requirements grow.
- **Unified Visibility, Control and Analytics**

  Gain centralized management, monitoring, analytics, reporting, and security insights across devices, sites, and services through an all-in-one cloud-based platform.
- **Faster Deployment and Simplified Operations**

  Accelerate onboarding, policy deployment, and ongoing administration with streamlined workflows, centralized configuration management, and automated operational tasks.
- **Secure Multitenancy for Service Providers**

  Support multiple customers or business units through complete tenant isolation, enabling managed service providers and large enterprises to operate with confidence and security.
- **Anywhere Access**

  Manage your network and security infrastructure from any location through a modern web-based interface, without the complexity of maintaining management servers.

Fortinet Cloud-based Network Management Options

FortiManagement Cloud

FortiManagement Cloud is a Software-as-a-Service (SaaS)-based solution ideal for SMBs and Managed Service Providers (MSPs) that prioritize simplicity and easy of use. It offers centralized network management, monitoring, and analytics for FortiGate NGFWs, FortiAP wireless access points, FortiSwitch Ethernet switches and FortiExtender cellular gateways from an intuitive, streamlined cloud experience.

FortiManager Cloud

FortiManager Cloud is a Platform-as-a-Service (PaaS)-based solution designed for distributed enterprises with more complex network environments that require advanced management, orchestration, and control of the Fortinet Security Fabric. FortiManager provides extensive capabilities and supports a broad ecosystem of integrations, enabling enterprises to integrate network management into their existing operations.

For more detail, visit FortiManager Ordering Guide. (https://www.fortinet.com/content/dam/fortinet/assets/data-sheets/og-fortimanager.pdf)

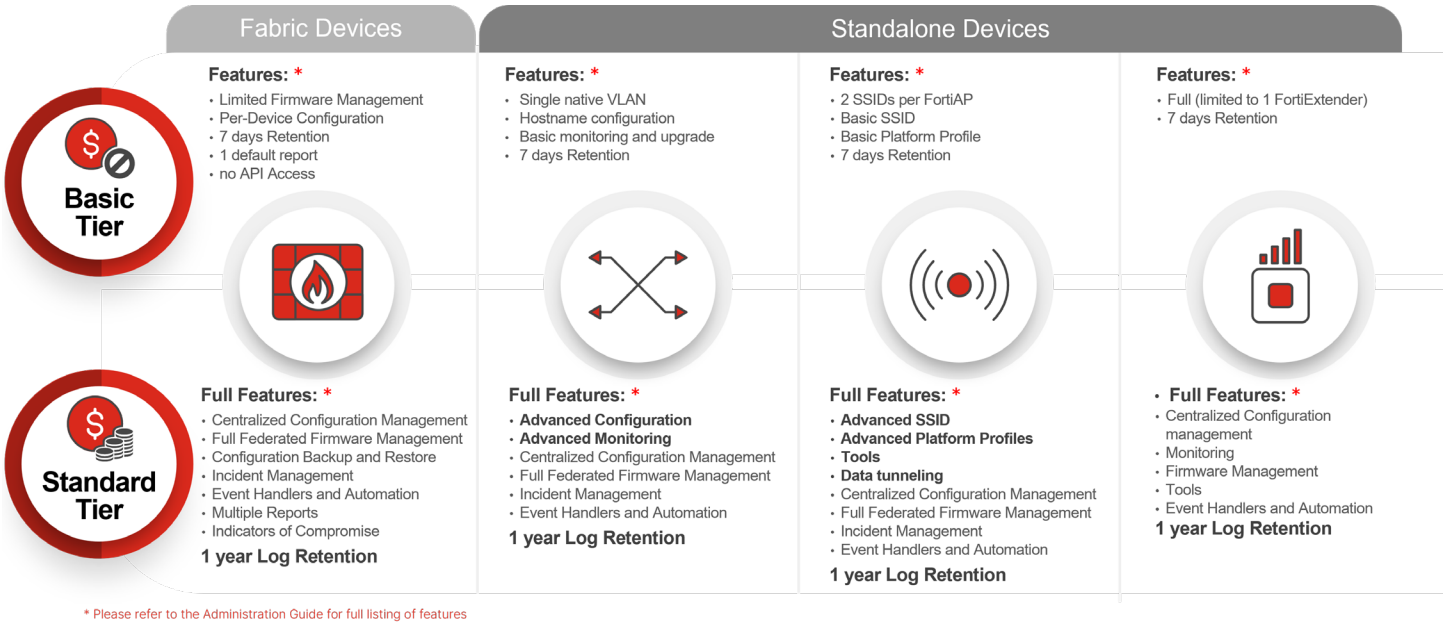

FortiManagement Cloud Offerings

FortiManagement Cloud provides centralized control and visibility for:

- FortiGate and FortiGate managed FortiAP, FortiSwitch and FortiExtender devices.
- FortiAP, FortiSwitch and FortiExtender devices directly managed via cloud (without FortiGate)

Subscription Tiers

FortiManagement Cloud offers per-device subscriptions. Its Standard subscription tier provides comprehensive cloud management and analytics capabilities to simplify network operations. A Basic tier with limited capabilities is available for trial purpose, subject to availability and eligibility requirements.

For more information about subscription types, see the FortiManagement Cloud Admin Guide in Fortinet Document Library.

(https://docs.fortinet.com/document/fortimanagement-cloud)

Registration and Provisioning

Registering devices and cloud subscriptions

a. Register your FortiGate/FortiWiFi hardware, FortiGate VM, FortiAP, FortiSwitch and FortiExtender devices to FortiCloud Cloud Account.

b. Register FortiManagement Cloud subscriptions, each product unit requires one subscription

   See https://docs.fortinet.com/document/forticloud/latest/asset-management for registering your assets.

   Alternatively, consider using the *Pending Registration* feature for bulk registrations.

Provisioning devices

After registration, the devices will automatically appear in the FortiManagement Cloud. Provision your devices to the cloud individually or in bulk.

FortiManagement Cloud Ordering Information

FortiManagement Cloud Standard subscription is per device and available for FortiGate, FortiAP, FortiSwitch and FortiExtender models for cloud management, analytics, and one year rolling log storage.

FortiManagement Cloud Standard Subscription

MANAGED DEVICE	SKU	DESCRIPTION
FortiGate	FC-10-MGT1G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate and FortiWiFi 30–40 Series. Includes cloud management and 1-year log retention.
	FC-10-MGT2G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate and FortiWiFi 50–60 Series, including Rugged models. Includes cloud management and 1-year log retention.
	FC-10-MGT3G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate and FortiWiFi 70–80 Series, including Rugged models. Includes cloud management and 1-year log retention.
	FC-10-MGT4G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate 90–100 Series. Includes cloud management and 1-year log retention.
	FC-10-MGT5G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate 200–300 Series. Includes cloud management and 1-year log retention.
	FC-10-MGT6G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate 400–600 Series. Includes cloud management and 1-year log retention.
	FC-10-MGT7G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate 700–2000 Series. Includes cloud management and 1-year log retention.
	FC-10-MGT8G-131-02-DD	FortiManagement Cloud Standard Subscription for FortiGate 3000–4000 Series. Includes cloud management and 1-year log retention.
FortiAP	FC-10-MGT0A-639-02-DD	FortiManagement Cloud Standard Subscription for all FortiAP Series. Includes cloud management,1-year log retention and FortiCare Premium.
FortiSwitch	FC-10-MGT1S-628-02-DD	FortiManagement Cloud Standard Subscription for FortiSwitch 100 Series with less than 24 Access ports. Includes cloud management,1-year log retention and FortiCare Premium.
	FC-10-MGT2S-628-02-DD	FortiManagement Cloud Standard Subscription for FortiSwitch 100 Series with less than 48 Access ports. Includes cloud management,1-year log retention and FortiCare Premium.
	FC-10-MGT3S-628-02-DD	FortiManagement Cloud Standard Subscription for FortiSwitch 100 Series with 48 Access ports and more, including all 100 series Rugged Models. Includes cloud management,1-year log retention and FortiCare Premium.
	FC-10-MGT4S-628-02-DD	FortiManagement Cloud Standard Subscription for FortiSwitch 200-400 Series, including Rugged Models. Includes cloud management, 1-year log retention and FortiCare Premium.
	FC-10-MGT5S-628-02-DD	FortiManagement Cloud Standard Subscription for FortiSwitch 500-900 series. Includes cloud management, 1-year log retention and FortiCare Premium.
	FC-10-MGT6S-628-02-DD	FortiManagement Cloud Standard Subscription for FortiSwitch 1000 series and above. Includes cloud management, 1-year log retention and FortiCare Premium.
FortiExtender	FC-10-MGT1E-583-02-DD	FortiManagement Cloud Standard Subscription for FortiExtender - Indoor 50-100 series.Includes cloud management, 1-year log retention and FortiCare Premium.
	FC-10-MGT2E-583-02-DD	FortiManagement Cloud Standard Subscription for FortiExtender - Indoor 200-500 series.Includes cloud management, 1-year log retention and FortiCare Premium.
	FC-10-MGT4E-583-02-DD	FortiManagement Cloud Standard Subscription for FortiExtender - Outdoor Rugged/Vehicle 200-500 series. Includes cloud management, 1-year log retention and FortiCare Premium.

Note: FortiAP, FortiSwitch and FortiExtender devices connected and managed via FortiGate do not require a separate FortiManagement Cloud subscription.

Multitenancy (FortiCloud Organizations)

FortiCloud accounts can enable multitenancy with FortiCloud Organizations with up to 10 accounts. For more than 10 accounts, FNDN basic account should be registered (no additional license needed). Accounts with valid FortiManagement Cloud Standard subscriptions are entitled to use multitenancy features.

Additional Feature Subscriptions

FEATURE	DEVICES	SKU/BUNDLE	DESCRIPTION
FortiDeploy	FortiGate, FortiAP, FortiSwitch, FortiExtender (Must be purchased with every PO)	FDP SINGLE USE	Enables zero touch bulk provisioning for your FortiGate, FortiWiFi, or FortiAP products. * This feature is only available on devices running FortiOS 6.4 and above
FortiSandbox SaaS	FortiGate (per device)	FC 10 XXXXX 809 02 DD	FortiGuard Enterprise Protection (FortiSandbox SaaS included)
		FC 10 XXXXX 950 02 DD	FortiGuard Unified Threat Protection (FortiSandbox SaaS included)
		FC 10 XXXXX 928 02 DD	FortiGuard Advanced Threat Protection (FortiSandbox SaaS included)
		FC 10 XXXXX 100 02 DD	FortiGuard Advanced Malware Protection (FortiSandbox SaaS included)
FortiConverter Service	FortiGate (per device)	FC 10 XXXXX 189 02 DD	Firewall migration service
SD-WAN Overlay-as-a-service	FortiGate (per device)	FC 10 XXXXX 1337 02 DD	SD-WAN Service bundle with FortiCare Premium for FortiGate 30 to 60 series (FortiManagement Cloud Standard and SD-WAN overlay as a service included)
		FC 10 XXXXX 1329 02 DD	SD-WAN Service bundle with FortiCare Premium for FortiGate 70 series and above (FortiManagement Cloud Standard and SD-WAN overlay as a service included)
		FC 10 XXXXX 1387 02 DD	SD-WAN Service bundle (FortiManagement Cloud Standard and SD-WAN overlay as a service included)
		FC 10 XXXXX 1389 02 DD	SD-WAN Service bundle for FortiGate 70 series and above (FortiManagement Cloud Standard and SD-WAN overlay as a service included)
		FC-10-XXXXX-1125-02-DD (for VMs)	FortiManagement Cloud Advanced for VM only (FortiManagement Cloud Standard and SD-WAN overlay as a service included)
FortiAP-G Series UTP Service	FortiAP (per device)	FC-10-APGIS-768-02-DD	FortiAP FortiGuard Universal Threat Protection (UTP) Subscription Service License for Application Control and Web Filtering modules. Applicable to FortiGate- or FortiCloud-managed G & K Series (FortiAP 241/243K, FortiAP 441/443K, FAP-23JK)
FortiSwitch Advanced Features License	FortiSwitch (per device)	FS-SW-LIC-200	SW License for FS-200 Series Switches to activate Advanced Features
		FS-SW-LIC-300	SW License for FS-300 Series Switches to activate Advanced Features.
		FS-SW-LIC-400	SW License for FS-400 Series Switches to activate Advanced Features
		FS-SW-LIC-500	SW License for FS-500 Series Switches to activate Advanced Features
		FS-SW-LIC-600	SW License for FS-600 Series Switches to activate Advanced Features
		FS-SW-LIC-1000	SW License for FS-1000 Series Switches to activate Advanced Features
		FS-SW-LIC-2000	SW License for FS-2000 Series Switches to activate Advanced Features
		FS-SW-LIC-3000	SW License for FS-3000 Series Switches to activate Advanced Features

Frequently Asked Questions

Is FortiManagement Cloud a new product?

FortiManagement Cloud consolidated FortiGate Cloud and FortiEdge Cloud into an integrated cloud management and analytics solution for FortiGate, FortiAP, FortiSwitch and FortiExtender devices. Enhanced with new features and capabilities, FortiManagement Cloud delivers a more intuitive user experience and streamlined management for FortiGate and FortiGate-managed devices as well as stand-alone deployments—all from one unified service.

Does FortiManagement Cloud have different subscription tiers?

FortiManagement Cloud Standard subscription is designed for organizations looking for an intuitive cloud experience with comprehensive management and analytics capabilities to simplify your operations. A Basic tier is also provided subject to availability and eligibility criteria for trial purposes. For more information, please see subscription type section in the admin guide available at https://docs.fortinet.com/document/fortimanagement-cloud.

How do I upgrade from a FortiManagement Cloud Basic tier to a Standard tier?

Purchase and register the FortiManagement Cloud Standard subscription to unlock the full set of features and benefits.

Is the FortiManagement Cloud subscription per device?

Yes. One subscription is required for each FortiGate, FortiWiFi, FortiAP, FortiSwitch, or FortiExtender being managed in FortiManagement Cloud. However, if FortiAP, FortiSwitch, FortiExtender are connected and managed via a FortiGate firewall, subscription is needed only for FortiGate. FortiAP, FortiSwitch and FortiExtender directly managed in cloud without FortiGate will require per device subscription. Devices should have FortiCare Premium Support on all devices managed by FortiManagement Cloud for support coverage.

How does FortiManagement Cloud offer zero-touch provisioning (ZTP)?

Yes. FortiManagement Cloud includes zero-touch provisioning capabilities for all supported devices, allowing them to be imported and provisioned to cloud with FortiCloud key or bulk key (FortiDeploy single use SKU).

Is FortiDeploy a different subscription?

Yes, FortiDeploy is used for bulk deployment of FortiGates into FortiManagement Cloud. This can be ordered one per PO. Alternatively, using the Pending Registration feature for bulk registrations is recommended for seamless and automated bulk registration process.

Do FortiManagement Cloud subscriptions support FortiSwitch, FortiAP, and FortiExtender devices?

FortiManagement Cloud supports FortiAP, FortiSwitch, and FortiExtender devices in two different deployment modes – connected and managed via FortiGate as the controller or directly managed from FortiManagement Cloud without a FortiGate.

Is FortiCare Support included with FortiManagement Cloud subscriptions?

For FortiGate devices, FortiCare Premium Support for the hardware is not included in the FortiManagement Cloud subscription. However, FortiCare Premium Support is included with the purchase of a FortiGuard services bundle, including Enterprise Protection, Unified Threat Protection (UTP), or Advanced Threat Protection (ATP).

For FortiAP, FortiSwitch and FortiExtender devices, FortiCare Premium is included in the FortiManagement Cloud subscription as long as the product is being managed by FortiManagement Cloud.

Do we need separate FortiManagement Cloud subscriptions to manage FortiSwitch, FortiAP and FortiExtender devices connected to a FortiGate?

When FortiAP, FortiSwitch, and/or FortiExtender devices are downstream connected to a FortiGate, no separate FortiManagement Cloud license is required to manage these devices.

Does FortiManagement Cloud support my previous FortiGate Cloud and FortiEdge Cloud SKU and how do we transition to FortiManagement Cloud?

Any existing FortiGate Cloud and FortiEdge Cloud SKUs are compatible with FortiManagement Cloud and continue to work until the expiration dates. Thereafter, customers can switch to the new FortiManagement Cloud SKUs.

How do I add/enable UTP (Unified Threat Protection) license to FortiAP

After registering a FortiManagement Cloud subscription for FortiAP, register UTP (Unified Threat Protection) at https://fortinet.com/register. During the registration select the FortiAP to which the UTP subscription license will be applied. Once this subscription is registered, UTP settings available within the SSID configuration options will be pushed to the devices with this subscription.

What happens when the FortiManagement Cloud subscription is expiring?

We recommend renewing the subscription before expiration. To accommodate any unexpected impact and avoid loss of service continuity, upon the expiration of a valid subscription, a generous grace period is provided to facilitate a seamless renewal process. See FortiManagement Cloud admin guide for grace period and platform behavior available at https://docs.fortinet.com/document/fortimanagement-cloud.

We previously used SKU (FCLE-10-FCLDO-161-02-12) for sub-accounts-based multitenancy. What is the recommendation for replacement?

This legacy sub-accounts-based multitenancy SKU has reached its end-of-life and is replaced with FortiCloud Organizations or Asset Folder based tenant management. With FortiCloud Organizations, by default, all accounts can use multitenancy for up to 10 accounts. For unlimited accounts, registering an FNDN basic account with the same email ID is required.

We use legacy multitenancy right now; will Fortinet stop supporting it?

Any customer with an existing, valid -161 license will be able to use it until the end of the license term. They will not be able to renew it at the end of the term and will need to register FNDN basic account to use Organizations Multitenancy or migrate to Asset Folder based multitenancy supported by FortiManagement Cloud.

How can I migrate my legacy multitenant structures to Organizations multitenancy?

Work with your Fortinet account team to help you with the migration.

We have FC-10-xxxxx-1125-02-12 on devices for SD-WAN Overlay-as-a-Service, but it is not available for order. What is the recommended replacement?

We have introduced new SD-WAN bundles (e.g. FC-10-xxxxx-1337-02-DD and FC-10-xxxxx-1339-02-DD) for hardware devices which deliver comprehensive SD-WAN capabilities and include both FortiManagement Cloud Standard subscription and SD-WAN Overlay-as-a-Service.

How do I order SD-WAN Overlay-as-a-Service for FortiGate VM?

For FortiGate VM deployment, Fortinet continues offering services on an à la carte basis. To leverage SD-WAN Overlay-as-a-Service, we recommend customers purchase FC1-10-xxxxx-1125-02-DD that includes this functionality.

Does FortiManagement Cloud support multiple regions and separate subscriptions needed for different regions?

Multiple regions are supported. Please see the FortiManagement Cloud Administration Guide at https://docs.fortinet.com/document/fortimanagement-cloud for latest supported regions. FortiManagement Cloud subscriptions are per device and can be used across any region.
