

FortiToken™ Mobile and FortiToken™ 210

One-Time Password (OTP) Token

Product Offerings

FortiToken Mobile

OATH compliant OTP generator application, supporting both time-based (TOTP) and event-based (HOTP) tokens

FortiToken 210

Two-factor authentication, OATH compliant, TOTP. A keychain-sized device that offers real mobility and flexibility.

No client software to install. Press the button, generate and display a secure one-time password every 60 seconds. The password verifies user identity.

The LCD big screen of the rugged FortiToken 210 is easy to read. The indicator displays the time left until the next OTP generation.

Two-Factor Authentication Offers Real Mobility

Enable two-factor authentication with FortiToken Mobile (FTM) One-Time Password (OTP) application with push notifications or a hardware time-based OTP token. Fortinet FortiToken Mobile and hardware OTP tokens are fully integrated with FortiClient, protected by FortiGuard™, and leverage direct management and use within the FortiGate and FortiAuthenticator security platforms. Fortinet two-factor authentication solutions are easy to manage and easy to use.

Highlights

Available in

Cloud

Convenient, Strong Authentication

FortiToken is the client component of the Fortinet highly secure, simple to use and administer, and cost-effective two-factor solution for meeting strong authentication needs. This application makes Android, iOS, and Windows mobile devices behave like a hardware-based OTP token without the hassle of having to carry yet another device. Push notification shows details on the mobile device to approve or deny with one tap.

Alternatively, hardware-based OTP tokens can be used to prevent user passwords from being stolen via phishing, dictionary, and brute-force attacks.

Ultra-Secure Token Provisioning

FortiToken Mobile is simple to use and administer and provision for the system administrator. The token seeds are generated dynamically, minimizing online exposure. Binding the token to the device is enforced and the seeds are always encrypted at rest and in motion.

Privacy and Control

FortiToken Mobile cannot change settings on a phone, take pictures or video, record or transmit audio, or read or send emails. Further, it cannot see browser history, and it requires permission to send notifications or to change any settings.

Additionally, FortiToken Mobile cannot remotely wipe a phone. Any visibility FortiToken Mobile requires is to verify the OS version to determine app version compatibility.

While FortiToken Mobile cannot change any settings without permission, the following permissions are relevant to FortiToken Mobile operations:

- Access to camera for scanning QR codes for easy token activation
- TouchID/FaceID used for app security
- Access to the internet for communication to activate tokens and receive push notifications
- “Send Feedback by Email” to automatically populate the “Sender” field
- Internally share files between applications to prepare an attachment to be sent by email for “Send Feedback by Email”
- FortiToken must keep the phone awake while it is upgrading the internal database to avoid data corruption

Highlights continued

Leverages Existing Fortinet Platforms

Besides offering out-of-the-box interoperability with any time-based OATH-compliant authentication server such as FortiAuthenticator, FortiToken can also be used directly with FortiGate Next-Generation Firewalls, including with high availability configurations.

FortiGate has an integrated authentication server for validating the OTP as the second authentication factor for SSL VPN, IPsec VPN, captive portal, and administrative login. This method eliminates the need for the external RADIUS server that is typically required when implementing two-factor solutions.

Online Activation with FortiGuard®

FortiToken tokens can be activated online directly from FortiGate or FortiAuthenticator using the FortiGuard Center. This process maintains token seeds in a managed service repository. Once the seeds are activated, they can no longer be accessed from FortiGuard, ensuring they are safe from compromise. Alternatively, Fortinet offers an encrypted activation CD solution.

Advantages

- Unique token provisioning service via FortiGuard minimizes provisioning overhead and ensures maximum seed security
- Perpetual token license and unlimited device transfers eliminate annual subscription fees
- Scalable solution leveraging existing end-user devices offers low entry cost and TCO
- Reduces costs and complexity by using an existing FortiGate as the two-factor authentication server
- Zero footprint solution

Main Features

FortiToken Mobile

- OATH time- and event-based OTP generator
- Login details pushed to phone for one-tap approval
- Mobile Application Security Certified (v3.1) for Android and iOS devices
- Patented cross platform token transfer
- PIN/Fingerprint protected application
- Copy OTP to the clipboard
- OTP time-interval display
- Serial number display
- Token and app management
- Self-erase brute-force protection
- Apple watch compatibility

FortiToken Hardware Devices

- Integrated with FortiClient™ and protected by FortiGuard
- OATH TOTP compliant
- Large, easy-to-read, LCD display
- Long-life lithium battery
- Tamper-resistant/tamper-evident packaging
- Battery Life Indicator
- OTP Timer
- FTK-210 is FIPS 140-2 compliant

Supported Platforms

FortiToken Mobile

- iOS (iPhone, iPod Touch, iPad), Android, Windows Phone 8, 8.1, Windows 10, and Windows Universal Platform
- WiFi-only devices supported (for over-the-air token activation)

FortiToken Hardware Devices

- FortiOS 4.3 and up
- FortiAuthenticator — all versions

Specifications

FORTITOKEN 210	
Time interval	30 seconds or 60 seconds
Display	6-digit high contrast LCD
Dimensions (Length x Width x Height)	61.8 × 28.7 × 8.9 mm
Weight	12 g
Operating Temperature	50°F to 104°F (10°C to 40°C)
Storage Temperature	32°F to 113°F (0°C to 45°C)
Water-Resistance	IP65 (Ingress Protection)
Casing	Hard Molded Plastic (ABS)
Secure Storage Medium	Static RAM
Battery	Lithium (non-rechargeable); minimum 3 years lifetime
Customization Available*	Company logo on faceplate branding
OTP standard	OATH-TOTP (RFC6238) HMAC-SHA1
Certification	RoHS, CE, FCC, ICES, UKCA
FIPS Certification	FIPS 140-2 Certificate

* Customizations are quantity-based

FORTITOKEN MOBILE	
Onboard Security Algorithm	OATH time and event based OTP generator
OTP Spec	RFC 6238, RFC 4226
Supported Platforms	iOS (iPhone, iPod Touch, iPad, iWatch), Android, Windows Phone 8/8.1, Windows 10 and Windows Universal Platform
Over-the-Air Token Activation	WiFi-only devices supported
One-Tap Approval	Login details pushed to phone
PIN/Fingerprint/Facial Security	☑
Serial Number Display	☑
Token and App Management	☑
Self-Erase Brute-Force Protection	☑

PLATFORM SCALABILITY

FortiToken scalability for specific platforms can be found in the Fortinet Product Matrix located at http://www.fortinet.com/sites/default/files/productdatasheets/Fortinet_Product_Matrix.pdf

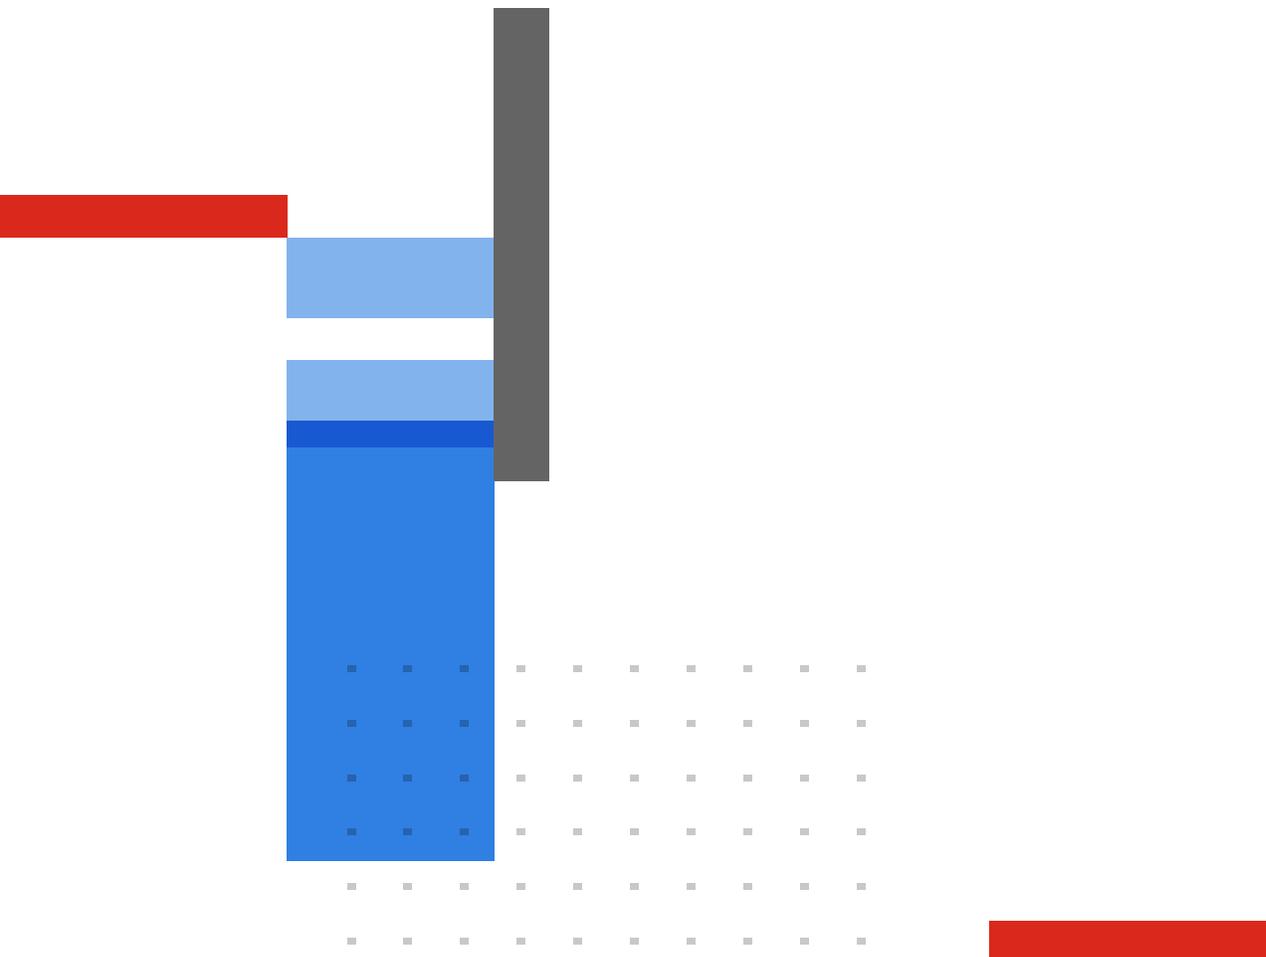

Ordering Information

Product	SKU	Description
FortiToken Software License Key	FTM-ELIC-5	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 5 users. Electronic licence certificate.
	FTM-ELIC-10	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 10 users. Electronic licence certificate.
	FTM-ELIC-25	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 25 users. Electronic licence certificate.
	FTM-ELIC-50	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 50 users. Electronic licence certificate.
	FTM-ELIC-100	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 100 users. Electronic licence certificate.
	FTM-ELIC-200	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 200 users. Electronic licence certificate.
	FTM-ELIC-500	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 500 users. Electronic licence certificate.
	FTM-ELIC-1000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 1000 users. Electronic licence certificate.
	FTM-ELIC-2000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 2000 users. Electronic licence certificate.
	FTM-ELIC-5000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 5000 users. Electronic licence certificate.
	FTM-ELIC-10000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 10 000 users. Electronic licence certificate.
